

- Observe quietly from a distance to see if the mother returns
- If the kittens are clean and curled up together, the mother is most likely out hunting and will return
- If the kittens are in immediate danger, try to move them to a safer spot nearby so the mother can still find them
- If the mother is around, please leave them alone and call Idaho Falls Animal Shelter (208) 612-8671
- Observe the age of the kittens, kittens who are very young are better left with their mother in a safe location until they are old enough to move.
- If the mother has not returned within 12 hours, move the kittens to a clean box/container with some towels and contact your local shelter(s)
